CAREER OBJECTIVE

- Capable of continuous learning from senior developers while still nurturing junior developers.

- Passionate about learning and development with a desire to apply skills on a larger development team.

- Eager to tackle more complex problems and continue to find ways to maximize user efficiency.

BIO

I am a Front End developer with one years of growth in exceptional work with JavaScript, HTML/CSS to deliver exceptional customer experiences. Adept at contributing to a highly collaborative work environment, finding solutions and determining customers satisfaction.

PROJECTS

My projects are listed there in my portfolio most of which are built from my ideas to development while others are group projects.

Assignment and Personal Projects

- Built a simple web app palindrome that can be used to check if a given word can be the same when spelt from both forward and reverse.

- Build a simple bill calculator that can be used to calculate the amount to be payed for the consumed products.

- Assisted my group in building sound user interfaces to further strengthen my markup and styling abilities.
